Patent Cooperation Treaty (PCT) Update

Change in international search fee charged by the European Patent Office, effective Aug. 10, 1985 and guidance regarding requirements submitted under 35 U.S.C. 371.

The International Bureau of the World Intellectual Property Organization has informed the U.S. Patent and Trademark Office that due to a change in the exchange rate between the U.S. Dollar and the German Deutschmark, the dollar amount of the international search fee charged by the European Patent Office for performing a search on PCT applications filed in the United States Receiving Office will increase to $680.00, effective Aug. 10, 1985.

On May 8, 1985, 35 U.S.C. 371 (c) was changed to remove the requirement that a verification statement attesting to the true and accurate nature of the translation be submitted when entering the U.S. Patent and Trademark Office as a Designated Office. Although the verification statement is no longer required at the time of entering the national phase, the translation must still be a true and accurate translation of the international application as filed. Any changes to the claims, for example, deletions of multiple dependencies or cancellations of claims to reduce the national fee, must be submitted in the form of a preliminary amendment separate from the translation of the application as filed.

Translations of amendments to the claims made under PCT Article 19 also must be submitted as a separate paper. Applicants are reminded that both the Article 19 amendments and the translation of those amendments into English must be filed by 20 months from any claimed priority date to avoid cancellation of the amendments to the claims made by the Article 19 amendment. If applicant wishes such cancelled amendments under Article 19 to be considered by the examiner, they may be introduced in the form of an amendment under 37 CFR 1.115.

DONALD J. QUIGG,
July 22, 1985. *Acting Commissioner of Patents and Trademarks.*

Notice of Maintenance Fees Payable

Title 37, Code of Federal Regulations, Section 1.362(d), effective Nov. 1, 1984, provides that maintenance fees may be paid without surcharge for a six-month period beginning 3, 7, and 11 years after the date of issue of patents based on applications filed on or after Dec. 12, 1980. Reference Collections of U.S. Patents Available for Public Use in Patent Depository Libraries

The following libraries, designated as Patent Depository Libraries, receive current issues of U.S. Patents and maintain collections of earlier issued patents. The scope of these collections varies from library to library, ranging from patents of only recent years to all or most of the patents issued since 1790.

These patent collections are open to public use and each of the Patent Depository Libraries, in addition, offers the publications of the U.S. Patent Classification System (e.g. The Manual of Classification, Index to the U.S. Patent Classification, Classification Definitions, etc.) and provides technical staff assistance in their use to aid the public in gaining effective access to information contained in patents. With one exception, as noted in the table following, the collections are organized in patent number sequence.

Facilities for making paper copies from either microfilm in reader-printers or from the bound volumes in paper-to-paper copies are generally provided for a fee.

Owing to variations in the scope of patent collections among the Patent Depository Libraries and in their hours of service to the public, anyone contemplating use of the patents at a particular library is advised to contact that library, in advance, about its collection and hours, so as to avert possible inconvenience.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).
